Dear Hiring Team,

I am writing to express my interest in the **Software Tester**. With over 4 years of experience in **Quality Inspection** within the **production industry**, I have developed a strong eye for detail, adherence to standards, and a process-oriented mindset — skills that I am now applying in the **Software Quality Assurance** Domain.

Recently, I completed comprehensive training in **Manual** and **Automation Testing** using **Selenium & Cucumber with Java**, where I gained hands-on experience in test case creation, execution, defect logging and automation scripting. My background in quality control, combined with my newly acquired technical skills, allows me to approach software testing with precision and a focus on continuous improvement.

I am eager to contribute my expertise to your team, ensuring that your products meet the highest quality standards before release.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your QA team.

Sincerely,

(Mahadevan D)
